PE DEPARTMENT INSET DAY

CLC bid

Equipment

Bundle Number	F12
Bundle Description	Storage Units- full length wall storage unit
New opportunities that will result from having equipment	Provide a secure place to store pupil assessed work for BTEC.
Who equipment will support	KS4 and KS5 students and PE staff
How equipment extend or develop skills learned at CLC	
How the equipment will support the schools development targets	Help to raise pupil attainment by ensuring assessed and passed pupil work is stored and readily available for access to move pupils onto higher levels of attainment.

Bundle Number	F2
Bundle Description	Hospitality
New opportunities that will result from having equipment	Students have regular access to water in PE lessons, where dehydration can occur. Access to water for community users.
Who equipment will support	Students, Staff and community users
How equipment extend or develop skills learned at CLC	
How the equipment will support the schools development targets	Increase pupil concentration span by ensuring pupils are hydrated. Raise pupil attainment. Promote well-being – healthy alternative to pop! Healthy active lifestyles- links into the ‘Healthy Schools Agenda’.

ICT

Bundle Number	ICT 2
Bundle Description	Apple cinema display
New opportunities that will result from having equipment	Enable interactive learning to take place within the fitness suite. Enable AFL resources to be used interactively. Enable music and videos to be played as a motivational tool whilst children are exercising and also for Community use. Allow extra-curricular information and match results to be displayed in a more positive way. It will enable community users to be updated with information about ‘what is on ‘ within the school in Community hours and therefore increase update in a wider variety of activities.
Who equipment will support	Students, Staff and community users
How equipment extend or develop skills learned at CLC	Use of ICT skills.
How the equipment will support the schools development targets	Concept rowers will be used interactively with the software that was provided with rowing machines, which we are currently unable to use. X-bikes- pupils to go on a variety of different bike rides via the interactive software and DVD we possess. This will enhance all pupils fitness levels, and attainment levels. OFSTED do look specifically at pupils levels of fitness when carrying out subject inspections. It will be a valuable aid to the exam classes and will contribute to good and outstanding practice. Assessment for learning is central to the PE curriculum and this facility would enable pupil performance to be replayed thus enabling analysis of performance to take place. It would also

	enable pupils to be shown the correct technical model for a skill, therefore enabling correct replication to take place and increased attainment.
--	---

Bundle Number	ICT 4
Bundle Description	Flip camcorder bundle
New opportunities that will result from having equipment	Instant analysis of performance. Interactive learning. Pupils able to peer and self assess more effectively – excellent assessment for learning tool. Ability to record assessment evidence for BTECs level 2 and level 3; this will greatly enhance level of individual pupil attainment.
Who equipment will support	KS4 and KS5 students
How equipment extend or develop skills learned at CLC	Use of new media technology
How the equipment will support the schools development targets	It will provide the opportunity for more elements of outstanding practice within a lesson. Great emphasis in the 2008 PE National Curriculum and new BTEC sport specifications, great emphasis is placed upon coaching and leading; these flip camcorders would enable pupils to video peers and then pick out the areas of What Went Well and how it would be Even Better If..
